

eBrelle

Laptop for the Blind

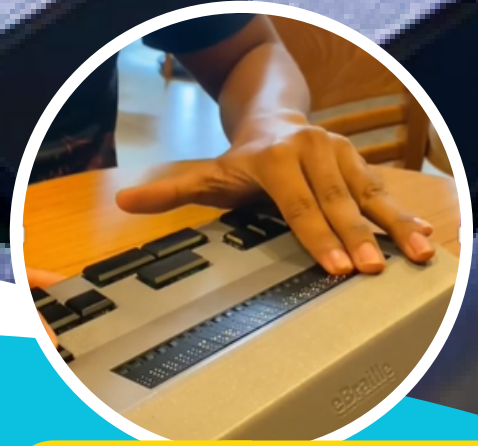

Braille Reading Device

eBrelle transcribes any digital text files (including PDF, Word, and Power Point) into Braille characters automatically. The blind and visually impaired now can have access to unlimited books and other reading materials.

Electronic Al-Quran Braille

eBrelle comes with a complete package for the blind and visually impaired people to read and learn Al-Quran. The electronic Al-Quran Braille function has voice guidance, together with Iqra' module for beginners and Al-Quran translation.

Special Braille Computer

eBrelle replaces the typical Braille machine and it can function as a special laptop for the blind and visually impaired. eBrelle can be used to take notes and store the notes in its internal storage of 32GB.
